## From the Seneschal

Hi everyone,

As of June 14, 2006, the Barony of Settmour Swamp has a new Policies and Procedures Manual. In addition, there is now an Excel worksheet for new and experienced autocrats to aid them while planning an event. Both can be found in the Settmour\_Swamp Yahoo Groups File section.

To abide by those Policies & Procedures, all Baronial Officer positions will be open to renewed elections.

This means, any and all gentles interested in a position among the Baronial Officers is encouraged to 'throw their hat in the ring.'

The rotation is to be by alphabetical order of Office Title. Please see the list below.

All gentles (incumbent and new) will need to present themselves at the corresponding Baronial Business Meeting in order to be voted on.

The schedule will begin in at the Baronial Officers' meeting in September 2006 and recur every month thereafter until all officers have been reaffirmed, or new ones voted in.

If you have any questions or concerns, please contact me.

In Service to the Dream,  
Lord Phillip Reed the Facetious  
Seneschal - Barony of Settmour Swamp

## **Baronial Office Reaffirmation Schedule Vote**

## Pennsic 2006

A reminder to all – Pennsic is coming up fast! This year our Swamp Night party theme will be "Danse Macabre". An excellent jumping –off point for looking the Danse Macabre and its themes up is Wikipedia: [http://en.wikipedia.org/wiki/Danse\\_Macabre](http://en.wikipedia.org/wiki/Danse_Macabre). As always, we have a Swamp camping form which is separate from the Cooper's registration. We have a copy of the form posted on the swamp website at <http://www.settmourswamp.eastkingdom.org/events.html>. The charge this year is \$25. We use these funds for communal amenities such as the large gathering tents, propane for the shower and firewood. If you are camping with us this year, please make sure to have your form in to Baroness Paigan by the 29<sup>th</sup> of July.

## **Wanted: Mudthaw Autocrats and Cooks**

To all: Mudthaw is a scant 8 months away! September's business meeting is the allotted time to hear bids for those who wish to autocrat of be head cook for the event. If you're interested, please come join us at the September meeting (time and place will be announced after the next officer's meeting). As autocrat of last year's Mudthaw, I can promise you that it's an experience that you'll never forget, or regret.

Lady Eleanor Callaghan

## Letters from the Baronial Candidates:

Our Baronial Candidates have written letters to introduce themselves:

**Baron Alexander MacGregor and Lady Rhiannon de Licorne**

**Unto** the populace of the Barony of Settmour swamp do Baron Alexander Macgregor and Lady Rhiannon de Licorne send greetings.

We would like to take this opportunity to explain why we are running for Baron and Baroness and to give you some ideas of what we would like to accomplish in the next four years.

Alexander has severed several times as Baronial Seneschal most recently he was seneschal during the first three years of Their Excellencies Teric and Paigan's term as Baron and Baroness. Currently he is the Baronial exchequer.

Lady Rhiannon served for many years as the Barony's Arts and Science officer and is currently the Barony's Mistress of Lists. She has also hosted Baronial meetings, craft guilds and dance practices.

Between us we have each autocrated almost every type and size of event the Barony has run. In addition Lady Rhiannon has cooked many feasts. When not autocrating or cooking we can be found at Troll, Running / helping with Royal room, doing setup, clean up or serving. Demos and teaching are also an important part of what we do as a Barony and we have both taught various classes and participated in many demos.

As you can see we are interested and active in many facets of the SCA. We would like to promote all aspects of our society and encourage all our members to pursue their own favorite pastimes but to also to experiment and try other activities.

One of the things we would like to see again in the Barony is regularly scheduled populace meetings. These can serve as a venue for individual as well as group projects, workshops, classes and event planning. They would be a good forum for Swampies to socialize and also keep in touch with what is happening and being planned in the Barony.

While in a group of this size large events are common, we would like to encourage some small scale themed events and scholas. These can be focused on a specific time period, culture, craft, martial art, etc. The possibilities are endless.

While running events is important, it is not the only way for a Barony to come together. We would like to encourage some non-event based activities. One possibility is that we could do some field trips together, a spring trip to the cloisters in NY so we can tour the gardens and the museum is just one example. There are many local museums we could visit over the years.

We would also like to hear your suggestions, what is on your wish list? If we all contribute some of our ideas, our time and make an effort we can enrich this medieval life experience for ourselves and each other. We can share our knowledge and passion for our own interests with others, learning from each other in a spirit of friendship and above all have fun doing it.

Together we will continue the traditions of this Barony and create some new ones to keep us the best Barony in the known world.

**Lord Alexander MacRus and his Lady, Cassandra de Matisse**

**Greetings** to the populace of the Barony of Settmour Swamp from Cassandra de Matisse & Alexander MacRus

You've seen us at events, perhaps in the kitchen, or at troll, behind a desk, or swabbing a mop. Both of us have a long history of helping at events. Recently, you've seen us making and serving Dayboard at Mudthaw, helping with troll and setup at Quest, and perhaps you've seen the cast bronze towers awarded at court recently that Alexander has made. We have been active in the Barony for over a decade.

We would like to take this opportunity to explain why we are running for the positions of Baron and Baroness of Settmour Swamp. Quite simply, we believe that we will do the job well. We are both well liked, and personable people, and we are happy to be on friendly terms with the different groups that are active in the Barony. We also believe that we would be good advocates of the populace of the Barony to the Crown, and we think we would be fair representatives of the Crown to the Barony. Also, mundanely, we are both lucky to have work schedules that allow us a good amount of flexibility.

We would also like to use this occasion to tell you what we would do if chosen. Alexander would like to see more awards given out, not necessarily Baronial awards, but personal awards, in order to acknowledge more contributions from people. Cassandra would work towards having a more social aspect to monthly meetings, perhaps, in addition to business meetings, with the purpose of drawing more people into the workings of the Barony. Together, we'd also like to create more opportunity for people to get involved with activities and events.

We know that we can't compel people to be involved, but we will try to make it as fun as possible in the hope that people will choose to. All of this is undertaken with the understanding, that not everyone plays the game the same. We believe it's important that everybody is able to enjoy it in their own way too. Therefore, we will endeavor represent and promote all aspects of the activities in the Barony, whether or not we take part directly ourselves.

Finally, we know we can't express our entire personalities and everything that we stand for in just one letter. We urge everyone to attend the populace meetings, to talk to us, engage us in conversation, and get to know all the candidates.

In service,  
Cassandra De Matisse & Alexander MacRus

**Lord Owynn Greenwood and Mistress Mercedes de Califia**

**Warmest** greetings unto the populace of the Barony of Settmour Swamp from Owynn Greenwood.

I've lived inside the borders of Settmour Swamp my entire life. I consider myself very privileged to have grown up in this wonderful Barony.

In my time in the SCA I have participated in a wide variety of activities. I am an authorized fighter and fencer and have been known to pick up a bow and arrow or throwing axe. I also enjoy serving as a heavy weapons marshal and currently am training to be a fencing marshal. I dabble in leather and wood working.

Over the past few years, I have been actively involved in the affairs of the Barony and the Canton of Marwick, having served as seneschal and web minister.

My goal, as well as the goal of my running-mate, Mistress Mercedes de Calafia is to continue the great traditions and leadership exhibited here in Settmour Swamp. These traditions and leadership practices have been nurtured and have flourished under our current and former landed Coronets of the Barony.

If selected, we shall strive to continue in the examples of those who have come before us, by enriching the lives of the populace of this Barony, the East Kingdom, and the Society as a whole.

I look forward to sharing with you my vision and goals. I will be at the populace meetings and traveling to events throughout the Southern Region over the course of the summer. I look forward to meeting those whom I have not had the pleasure of meeting yet. Please feel free to contact me with any questions.

owynn.greenwood@gmail.com or 908-447-2979

In service,

Lord Owynn Greenwood

**Unto** the populous of the Barony of Settmour Swamp does Mercedes de Calafia send fair greetings.

I would like to take a brief moment to share some of my SCA experiences with you. I have been a member of the SCA for 30 years. Previously, I lived in Caid, but I have spent over 25 years as a proud member of the East. While I spent a few years living in the Barony of Carillion, the majority of my time in the East has been spent as a member of the Barony of Settmour Swamp. Currently, I am in the process of purchasing a home within the borders of the Barony.

Instead of listing my SCA resume, there are a few jobs I've held that I believe will help me if we are fortunate enough to be elected. I have served on the Kingdom level as the East Kingdom Rapier Marshal, for which I was inducted into the Order of the Pelican. On the Baronial level, I was appointed Vicar of Carillion, for which I was made a Court Baroness. The experiences of these two offices have given me insight into dealing with the Kingdom as a whole and being the head of a Barony in particular.

Settmour Swamp is a wonderful thriving group that is one of the best baronies in the Kingdom, filled with hardworking, and hard-playing people. My goal for the Barony is very simple, I want to help this continue and grow in the same traditions already being honored and created by the populace.

I look forward to meeting new people, and seeing old friends at the commons meetings and events this summer. If you have any questions for me, please feel free to contact me at [jkjelly@juno.com](mailto:jkjelly@juno.com) or 732-750-1701.

Yours in service,  
Mistress Mercedes de Calafia

# Lost Wax Casting of Bronze

Alexander MacRus

More than a few people have approached me recently, about the process of casting the bronze towers; I thought that people might want to see the process behind the production of the bronze towers. Eowulf the Innocent was over on a day that I was casting, and provided me with the pictures I'll be sharing with you.

While I first set out to make the Towers, (mainly because there was a void,) I intended to start on the path of making them in a period way. As I learned about period methods of bronze casting, I found that making them that way would require more space than I had. (I live in a townhouse.) So I went with a more modern method of making them. Luckily for me, the lost wax process, while period, is also still a very popular method in modern times.

Step one is to create the wax positive

We start with a clay master of the tower shape, and then make a rubber mold from that, so each of the wax positives would be the same size and shape. For one-off pieces, we start directly with the wax. Once we've made 10 to 12 small wax towers, we go to the next step.

Step two is to sprue and gate the entire mold.

Keep in mind that whatever is wax in the beginning will be bronze at the end of the casting. The spruing process allows the bronze to flow into the mold. Since these objects are fairly small in size, it's simpler to cast many towers in one mold at a time.

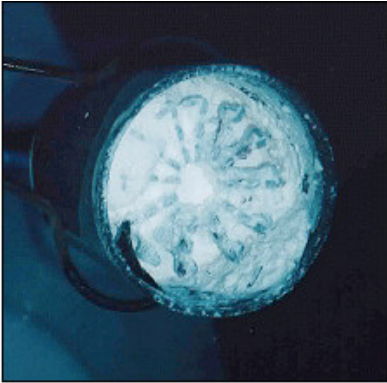

Step three is the investment process

Once the wax is sprued, it is put in a metal sleeve, and filled with investment. Investment is the term for the mold material. In this case, we use a modern plaster-like investment that pours in as a liquid and quickly sets up. In period, they could have used cow dung mixed with clay, starting with a thin coating the surface first to get more detail, and then applying coarser

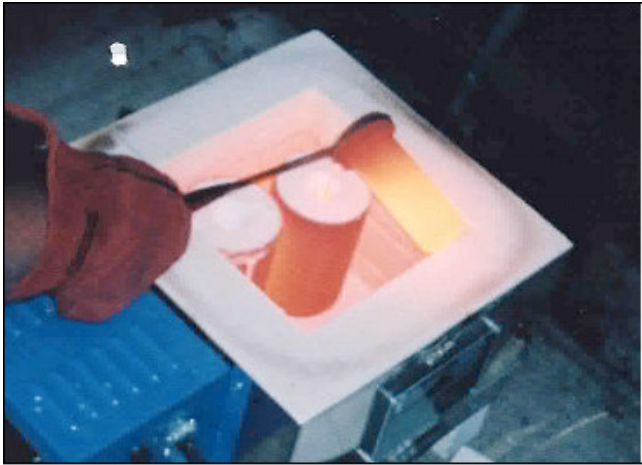

layers to build up the strength of the mold. A metal sleeve would not be needed, nor used.

The modern investment has another great benefit; it is porous to air, which allows the wax mold to be simplified by not having to put in vents. Otherwise, the gating and sprueing would have to be setup, to allow the bronze to pour in, while the air comes out. Since there are no extra vents, it makes the finishing step faster and the end result cleaner.

Step four is the burn-out

After the investment has setup, it has to be fired to remove the wax, by burning the wax out. The mold is slowly heated to about 450 degrees for the burn out. Once the wax is burned out, leaving the voids that the bronze will fill up. The mold is then heated up to around 1200 degrees, so the mold does not chill the bronze as it is being poured.

In the case of the towers, we heat the mold to 1900 degrees, since we've found from trial and error that we get incomplete castings with lower temperatures, since the pieces are very thin. The burnout also takes about 8 hours or more.

Step five is the actual casting

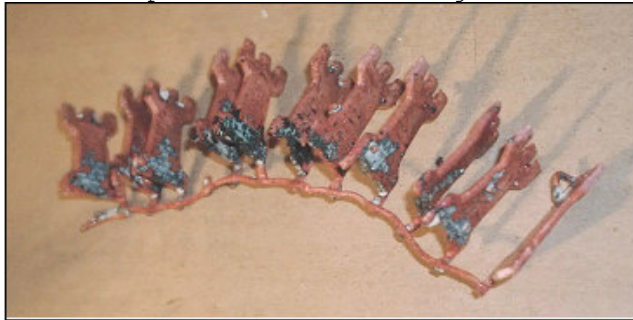

The bronze we're using melts at close to 2100 degrees. It's not a period alloy, but it pours and captures fine detail better than the classic "10 to 1" (Ten parts Copper to One part Tin) we started out using. We're using an electric melter to melt the bronze, as a furnace is somewhat hazardous indoors.

Step six is the removal of the investment

For the modern investment being used, it just needs to be dunked in water while hot, and the investment breaks away. Once the bulk of the investment is gone, the rest can be picked off with tools.

Step seven is finishing of the tower.

The sprues have to be cut off, and then the exposed areas are filed down, and matched with the rest of the piece. The towers are given a rough polishing, and then given a patina. Patinas can either be artificial, like liver of sulfur, or more natural, with exposure.

If you have any questions about the process, or are interested in helping, or need help casting something, feel free to talk to me at an event or meeting.

Alexander MacRus
